Summary

Enthusiastic and result-oriented developer with a passion for attention grabbing visuals. Looking to break further into website design and UX currently where I can apply my background as a photographer. Skilled with implementation of backend development tasks as well, including 3rd party API integration, website maintenance and handling data storage.

SKILLS

Front End: *HTML, CSS, Javascript, JQuery, React.js, Bootstrap, Handlebars, Materialize*

Back End: *MySQL, MongoDB, Node.js, Express.js*

Deployment: *Github, Heroku*

Adobe Creative Cloud: *Lightroom, Photoshop, InDesign, Premiere Pro*

EXPERIENCE

- **Northwestern Coding Bootcamp** - *student*
Project managed group projects, met deadlines and graduated with A's
